\$174 PER SET | RETAIL \$299 | LU WSP-6S

WIFI IN-WALL OR IN-CEILING SPEAKERS - SET OF 2

Enjoy wireless music playback controlled by your smartphone, tablet, etc. Simple to install in ceiling, wall or eaves! Create & control multiple zones within your home or retail store - play the same or different music from each set of speakers. Use the SmartSonix app or an app of your choice. Compatible with Wifi, ethernet or RCA for multiple playback options. Includes 2 speakers - 1 x 60W amplified active speaker & 1 x passive speaker (24V low voltage speakers require no permits or special wire). Easy to replace existing speakers - use existing speaker wire as the power wire. Active speaker has L&R outputs to connect to the passive speaker with speaker wire. The speakers also function as access points once joined to your Wifi/ethernet network (extends your Wifi). Set to max or 50% reduced volume with a manual switch on the speaker face - ideal for retail spaces or restaurants where people are talking. The volume of each speaker can be controlled as well as creating a left, right, or stereo channel; aimable centre speaker. Removable magnetic white grill (paintable) to access controls/Wifi buttons. Use your existing Wifi signal (no internet required) - no extra routers required unless you want a separate music network

ACCESS YOUR MUSIC FILES, YOUTUBE, INTERNET RADIO & HOME THEATRE SOUND: Download the SmartSonix app from Google Play/App Store (other apps will also work). Turn on the speakers, open SmartSonix & select "Add new device". Press the button on the speaker (blue light flashes). The speaker will appear in the app & ask for your Wifi password. You can name the speakers ("Kitchen", "Basement", etc.)

TECH SPECS: Includes 2 speakers, power supply (DC24V/2.5A), template sheet & user manual • 6.5" woofer (kevlar woven cone) • 1.2" tweeter (titanium dome), 2 x 30W inside amplifier • Wifi 802.11 b/g/n • Supported Audio Formats: MP3/WMA/AAC/ACC+/ALAC/FLAC/APE/WAV • RMS Power: 2 x 30W/8Ω • Frequency Response: 65Hz-20kHz • Sensitivity (1W/1M): 90dB • Treble Attenuation: +3dB/-3dB

BONUS FEATURES - ALSO AVAILABLE:

These speakers work with the Tech Connect! Make your existing stereo & WPS-6S speakers work together - the Tech Connect appears in the SmartSonix app & combines so you have full control.

**TES TECH CONNECT
WIFI MUSIC STREAMING
RECEIVER - WSR-1**
\$59

TES TECH CONNECT WIFI MUSIC STREAMING RECEIVER - WRS-1

\$59 | RETAIL: \$349 | LU WRS-1

- Turn your existing sound system into a wireless music streaming system over your WiFi!
- Also functions as a WiFi repeater - extend your WiFi signal coverage by up to 50' allowing you to daisy-chain multiple units
- Set it up for a multi-room system & stream the same or different music to separate rooms using the free SmartSonix app (compatible with iOS®, Android™, Windows®) • Connect & control multiple units with the SmartSonix app, set an alarm to wake up to music or a sleep timer to turn off after an amount of time • Compatible with Airplay® (iOS®), DLNA® (Android™), WiFi Direct® (Miracast™) to stream or use free paid apps like Spotify®, TunesIn, Tidal, etc.

HOW TO USE: You will need one Tech Connect per stereo device you wish to connect. Each unit requires USB power either from a USB port or USB wall adapter. It connects to any stereo device that has a 3.5mm AUX line-in input. If your device only has composite (RCA) inputs, you can use a 3.5mm to RCA adapter (sold separately). On your smartphone, tablet, etc, download the free SmartSonix app from the App Store®, Google Play™, or Microsoft® Store. Power on each unit & open SmartSonix. Press the seek button on the WiFi device (one at a time if you have more than one device) and the device will appear in the app through your WiFi network provided it is within WiFi range. You can now name any of your connected devices such as "Living Room", "Kitchen", etc. Once your devices are connected, you can now use SmartSonix to select one of the many music options including TunesIn to enjoy internet radio, other web-based streaming sources, or your music collection stored on your device. You can control also the volume of each device separately through the SmartSonix app. You can go to each device & set the maximum volume as desired & SmartSonix will not adjust louder than your setting. If you set SmartSonix to play a station & then close the app, the Tech Connect will stay connected to the last played station.

SPECIFICATIONS: WiFi: IEEE802.11b, IEEE802.11g, IEEE802.11n. Compatible Formats: AAC LC/LTP, HE-ACCv1, HE-ACCv2, AMR-NB, AMR-WB, FLAC, MP3, Vorbis, PCM/WAV, ALAC. Input: 1 x Analog Audio, 1 x RJ45. Output: 1 x Analog Audio. Power Input: Mini USB 5V. Dimensions: 4.6" x 3.75" x 0.9". Includes: WiFi streamer, 3.5mm AUX cable, & USB cable.

MOFI NETWORK WIFI ROUTER with SIM 4 SLOT - MOFI4500-SIM 4

\$361 • MOFI4500SIM4 • Model: MOFI4500-4GXeLTE-SIM4 V3 (NON COMBO) - **SIM CARD NOT INCLUDED**

- Wall mountable small rugged metal design great for the home, office, RVs, ATMs, kiosks, buses, etc.
- Remote Central Fleet Management Cloud Interface works on private IPs
- Wireless bridge/repeater mode to extend range &/or use an Ethernet connection with any WiFi signal including from a hotspot device
- Mofi to Mofi VPN mode to allow a secure encrypted connection
- Ability to assign a static public IP address for any device that requires one (many providers do not give you a public IP address & you will need this for a DVR or anything that you need a direct connection from the outside)
- MOFI ad blocker/parental control
- Full bandwidth monitoring to view usage of connected devices & limit bandwidth/speed
- Parental controls
- Video game optimized mode - auto port forwarding for Xbox, PlayStation
- VPN + OPENSWAN IPSec & OpenVPN Support
- Fail safe boot loader
- USB print server
- Detachable 7" 5dBi antennas
- Dynamic DNS full support
- True DMZ not Pseudo DMZ Zone
- True IP-Pass-Through
- Standalone VPN & DHCP Server
- Connections: 1 x DC jack for power input (110-220V input, 12V DC output, 12-24VDC range input) (Recommended inline fuse for vehicle installations: 1 A fast-blow), 4 x RJ45 for LAN ports 10/100 (can be used as multi WAN ports), 1 x RJ45 for WAN port 10/100 (can be used as a LAN port), 1 x front USB 2.0 port, 1 x factory reset/WPS button, 2 x 5 dBi external reverse SMA antennas for WiFi
- Dimensions: 110mm x 85mm x 30mm (4.3" x 3.3" x 1.2"), 340g/0.75lb
- LTE Bands: B1, B2, B3, B4, B5, B7, B8, B12, B13, B17, B20, B25, B26, B30, B41
- Built in 3G/4G/LTE cellular embedded modem with multiple LTE bands including support for carrier aggregation
- Advanced bandwidth monitoring, speed, bandwidth limits & restriction options
- Ability to see signal as well as to force a specific band if available to prevent unintentional band hopping
- Multi-WAN with fail safe (if one connection fails, can set to auto connect to another)
- WiFi Fail Over (great for boater or anyone that gets free WiFi & only uses 4G/LTE when not in range)
- Internal Module Specs: LTE Category 6: 300Mbps DL, 50Mbps UL (note the max this model can handle is up to 100mb/s)
- HSPA+: 42Mbps DL, 5.76 UL
- TD-HSDPA/HSUPA: 2.8Mbps DL, 2.2Mbps UL
- EDGE: Multi Slot Class 12 236.8 kbps DL & UL
- GPRS: Multi Slot Class 10 85.6 kbps DL & UL
- 2 x 5 dBi external reverse SMA antennas for WiFi & 2 x 5 dBi External SMA Antennas for 3G/4G/LTE cellular signal
- 1 x 2FF SIM slot (full size)
